

Lamoille Health Partners Medical Cannabis FAQs

Can my LHP provider write me a prescription for medical marijuana?

No, your LHP provider cannot prescribe you medical marijuana.

If medical marijuana is legal in VT for qualifying health conditions, and I have one of those conditions, why can't my LHP provider prescribe it for me?

While medical marijuana is legal in Vermont, it is still illegal under the United States Federal Law. Lamoille Health Partners is a Federally Qualified Health Center (FQHC). The federal government helps FQHCs by providing funding and other resources. FQHCs must follow a set of government rules and requirements. The law forbids all FQHCs from having, making, or providing marijuana, even for medical reasons.

Lamoille Health Partners cannot help anyone obtain medical marijuana by providing prescriptions or completing medical verification forms.
